Raj,
It looks like both our Regional Administrator and HQ OEM do not want us to physically perform the MCHM sampling and analyses. They are concerned about EPA getting dragged back in to the incidentor something similar.

It was suggested that we offer the MCHM analytical method and experimental air sampling method documents to the WVDEP for their use.

Dennis and/or Melissa will follow up with our R3 immediate management and possibly the WVDEP once again to see if this is something they want to pursue.

Are you folks ok with sharing the documents with the WVDEP?

Sorry about this. It is a frustrating turn of events for several of us.
(PS. I am still working on ORD providing an air screening level. Waiting to hear back from Greg Sayles.)

Jack
